Question 2:-

The screenshot displays the LandingLens web application interface. The browser address bar shows the URL: `app.landing.ai/app/149598062262275/pr/149599923914755/data/databrowser?filters=%257B%257D&rightSidebar=model_performance`. The interface includes a top navigation bar with links for Home, Projects, Examples, and Community. A sidebar on the left contains icons for Build, Models, Deploy, and Tasks. The main content area is titled "Build" and shows 11 images. The "Images" tab is selected, and the "Prediction: Model-05-03-2025_1 (0.46)" is displayed. The images are arranged in a grid, showing various facial expressions. On the right, a sidebar displays the model details for "Model-05-03-2025_1", including training time, accuracy (100% for Train set, 100% for Dev set, -- for Test set), F1 score (11), and buttons for "View Confusion Matrix" and "Try Model".

Try this model

The "Try this model" interface features a large image of a person's face with a blue dashed bounding box. To the right, a "Confidence Threshold" slider is set to 0.31, with a "Deploy" button below it. The "Prediction" section shows the result: "Neutral (1)". At the bottom left, there are icons for uploading a file and a camera, with a small thumbnail of the person's face next to the camera icon.
